Personal Information

Date of birth 24/05/2001
Nationality Portuguese
Gender Male

Job Applied For

Master's student in Computer Engineering seeking internship, research, or graduate opportunities

Work Experience

- 09/2019 – **IT Course Instructor**, *Academia do Saber – Center for Studies, Tutoring and Training*,
Present Queluz, Portugal
- Preparation of classes and structuring of various courses taught.
 - Teaching of various IT courses taught at the institution.
 - Training provided in the following areas/programs: Office, Windows, Internet, Internet Security.

Education and Training

- 09/2024 – **MSc in Software Engineering**, *Faculdade de Ciências da Universidade de Lisboa*, Lisbon,
Present Portugal
- Relevant coursework: Machine Learning, Distributed Systems, Advanced Algorithms, Cloud Computing, Cybersecurity.
 - Thesis or dissertation topic: briefly describe your research area or technical focus.
 - Current average grade: 15/20 .
- 09/2021 – **BSc in Computer Engineering**, *Instituto Superior de Engenharia de Lisboa*, Lisbon,
07/2024 Portugal
- Relevant coursework: Programming, Data Structures, Operating Systems, Databases, Computer Networks.
 - Final project: add your capstone project title or short description.
 - Final grade: 14/20.

Research and Academic Projects

- 2025 **Master's Dissertation Project**, *University Name, City, Country*
- Investigated a topic in computer engineering such as artificial intelligence, embedded systems, or distributed computing.
 - Applied research methods, literature review, implementation, and evaluation of results.
- 2023 – 2024 **Selected Academic Projects**, *University Name, City, Country*
- Developed individual and team projects involving software engineering, systems programming, or data analysis.
 - Example topics: web platform development, IoT prototype, compiler, recommendation system, or network simulation.

Personal Skills

Mother tongue(s) Portuguese
Other language(s) English (C1), Spanish (B1)

Communication skills Ability to explain technical concepts clearly, collaborate in team projects, and present academic work effectively.

Organisational / managerial skills Time management, teamwork, project planning, and the ability to balance academic and technical responsibilities.

Digital skills Programming: C, C++, Java, Python, JavaScript
Technologies: SQL, Git, Linux, Docker, MATLAB
Areas: Software Engineering, Data Structures, Networks, Machine Learning

Additional Information

Certifications List relevant certifications, online courses, or technical workshops here

Projects Mention GitHub projects, hackathons, student competitions, publications, or volunteer work
